

# MUBAREK ADEM

Full Stack Developer

+2519-1800-7237 • mubarekadem001@gmail.com • <https://www.linkedin.com/in/mubarek-adem/> • <https://mubarek.dev>

## Summary

Detail-oriented **full-stack developer** with extensive experience in building **dynamic, user-centric web applications** and **interactive frontends** using **React and Next.js**.

With intermediate knowledge of **Flutter**, I bring versatility to mobile app development, enabling cross-platform solutions.

Proficient in **JavaScript, TypeScript, Node.js, PostgreSQL, MySQL, and MongoDB**, I excel in creating seamless user experiences backed by **robust, scalable backend architectures**.

Experienced in working with tools like **Git**, and comfortable in Agile environments where problem-solving, collaboration, and innovation are key.

**Cisco Certified CCNA** with a solid understanding of networking fundamentals, routing and switching, and network security—adding depth to my ability to build secure and efficient full-stack solutions.

## Experience

### Emarosh Engineering

Full Stack Software Developer

08/2025 - Present

- Designed, developed, and maintained web and mobile applications using modern frameworks and programming languages.
- Collaborated with cross-functional teams to gather requirements and deliver scalable software solutions.
- Implemented database models, APIs, and integrations to support application functionality.
- Applied version control (Git) and agile methodologies to streamline development and deployment.
- Debugged, tested, and optimized code to improve performance, reliability, and user experience.

### BeWide Technologies

Full-Stack Web & Mobile app Developer Intern

06/2025 - 03/2026

- Build Scalable, Efficient, and User friendly Systems
- build interactive, dynamic and secure systems
- full-stack development of multiple web and mobile based applications

### Ibex Technology and promotion

Full-Stack Developer Intern

07/2024 - 10/2024

- Developed scalable, user-centric web applications.
- full-stack development of multiple web-based platforms, focusing on scalable, user-centric applications.
- build interactive dynamic we apps with restful APIs and graphql
- built react js projects with express backend

## Education

Bahirdar University Institute of technology

2022 - 2025

BSC in Information Systems

Bahir Dar STEM Incubation Center

2017 - 2021

High School Diploma

Cisco

12/2023 - 03/2024

Cisco Certified Network Associate (CCNA)

ALX

05/2024 - 07/2024

ALX AICE Career Essentials

ALX

03/2025 - 01/2026

Back-end Development

Kifiya AI Mastery(KAIM - Tenacious)

11/2025 - 03/2026

AI Engineering

## Skills

---

Technical Development Skills:

HTML · JavaScript · TypeScript · CSS · Tailwind CSS · Node.js · Nest.js · Express.js · Next.js · SQL · MongoDB · Docker · Git · GitHub · Flutter · Firebase · Hive · RESTFUL APIs

Soft Skills: Good Communication · Team Working · Collaboration

Networking Skills: Core Networking · Switching · Routing · Wireless Essentials · Enterprise Networking · Security & Automation

## Certification

---

CCNA:Introduction to Networks

CCNA : Switching , Routing & Wireless Essentials

CCNA : Enterprise Networking , Security & Automation

ALX AICE Career Essentials

ALX Professional Foundations

## Projects

---

Ajr

<https://ajr-five.vercel.app/>

- A worship companion app for Quran recitation, daily habits, and practical Islamic utilities.

Projectify (AI powered project analyser )

<https://project-fy-tau.vercel.app/>

- AI-powered platform designed to streamline project analysis, generate innovative ideas, and assist you in managing your projects effectively.
- By leveraging cutting-edge AI technologies, Projectify helps you save time, improve productivity, and achieve your goals seamlessly.

flutter-Gpt

<https://github.com/MubarekAdem/flutter-gpt>

- AI chat bot similar to Gpt
- persist database locally with Hive
- Minimal user friendly UI

AI Powered Hospital Record Management System

<https://cprms.vercel.app/>

- AI powered Patient Record management System
- AI Insights , Recommendations
- Mobile app separation for Patient App
- Role based access Control
- Authentication Using Next auth
- User friendly interface for Website and Mobile App
- Gemini AI Api
- Full-stack OTP support

News App stream

[https://github.com/MubarekAdem/flutter\\_news](https://github.com/MubarekAdem/flutter_news)

- A minimal App for fetching trending News from News API and rendering them real times and weather News
- User-friendly UI for fetching News
- fetching real time Weather data

# Projects

---

## My Zikr App

<https://my-zikr-app.vercel.app/>

- An Islamic and enriching web application designed to enhance the daily practices of Muslims.
- Built with Next.js, My Zikr App provides users with features like Quran reading, tasbeeh counters for dhikr (remembrance of Allah), curated collections
- duas (supplications), and authentic hadiths.
- With a sleek and intuitive interface, it ensures seamless navigation and a focused user experience.

## Sheikh Muhammed Hamidin

<https://play.google.com/store/apps/details?id=com.bewidetechnologies.muhammedhamidin>

- What was a successful outcome of your work? (e.g. Raised \$3,000 for the charity)

## Sheikh Muhammed ferej

<https://play.google.com/store/apps/details?id=com.sheikhmuhammedferej>

- What was a successful outcome of your work? (e.g. Raised \$3,000 for the charity)

## My E commerce

<https://e-commerce-store-three-blush.vercel.app/>

- An intuitive and responsive e-commerce platform built to provide a seamless shopping experience
- Featuring product management, user authentication, role-based access, secure checkout, and customer reviews, this project showcases modern web development
- practices using React.js, Tailwind CSS, and a custom authentication system.

## Instagram UI

<https://github.com/MubarekAdem/instagram-ui>

- A Frontend UI clone of instagram APP
- UI clone of Instagram pixel similar app

## Fake News Generator

<https://breakingnewsgenerator.vercel.app/>

- A fun and creative website that allows users to generate their own breaking news headlines.
- Inspired by breakyourownnews.com, this tool lets users customize headlines with various categories, making it easy to create and share unique, fictionalnews stories.
- Built with a user-friendly interface, it's designed for quick and engaging content creation.
- Created a dynamic event management platform with customizable event pages and secure QR ticketing for check-ins.

## Messenger App

<https://github.com/MubarekAdem/messenger-app>

- User-friendly interface for an intuitive chatting experience.
- Firebase authentication with OTP verification for secure sign-ins.
- Real-time messaging using Firebase Realtime Database for instant message delivery.

## Sheikh Ibrahim Siraj

<https://play.google.com/store/apps/details?id=com.sheikhibrahimsiraj.app>

- What was a successful outcome of your work? (e.g. Raised \$3,000 for the charity)
